

CSI Provides a Solution to Textbook Management Issues in California

The **California County Superintendents Educational Services Association** is interested in making available to districts tools to assist with the inventory and management of instructional materials.

Collegiate Services, Inc. (CSI) is recognized as having a total and unique solution to the textbook inventory management and control process, requiring no capital or personnel investment by the client. This is particularly timely as districts are dealing with the Williams settlement requirements.

CSI's robust program provides:

- Perpetual inventory of textbooks
- Annual physical inventory of each school
- Annual inventory reports by book, by class, by school, by district, by county
- Identification of missing inventory (shrinkage)
